(54) EXPECTED BILL AMOUNT MANAGEMENT SYSTEM, SYSTEM AND METHOD FOR ADVANCE MONEY MANAGEMENT, AND PROGRAM

(57)Abstract:

PROBLEM TO BE SOLVED: To manage the advance money for an expected bill as the value for information provided by using a communication means.

SOLUTION: The expected bill amount management system which manages the expected bill amount as the value for the information provided by using the communication means is equipped with a bill amount management device 30 which manages the expected bill amount and a advance money management device 20 which manages the advance money for the expected bill amount; and the advance money management device 20 has a bill amount information acquisition part 204 which acquires bill amount information showing the expected bill amount from the bill amount management device 30, a advance money calculation part 206 which calculates the advance money according to the bill amount information that the acquisition part 204 acquires, and an output part 210 which outputs advance money information indicating the advance money calculated by the calculation part 206.
